AI Fabric

Manage and scale AI to achieve faster ROI

Struggling to apply AI?

AI Fabric helps you **orchestrate** all moving pieces of AI - **deploy, consume, manage, and improve machine learning models**. Let AI Fabric do the heavy lifting so you can reap the benefits from new cognitive workflows while focusing on your business.

Benefits

AI Fabric bridges the gap between RPA and data science teams and enables you to **instantly apply the limitless cognitive power of AI** to any software currently being automated by RPA.
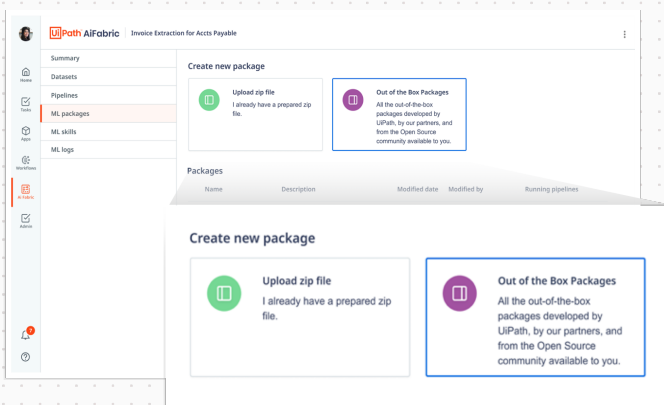

Accelerated productivity

Control and visibility

Scalability

Faster ROI
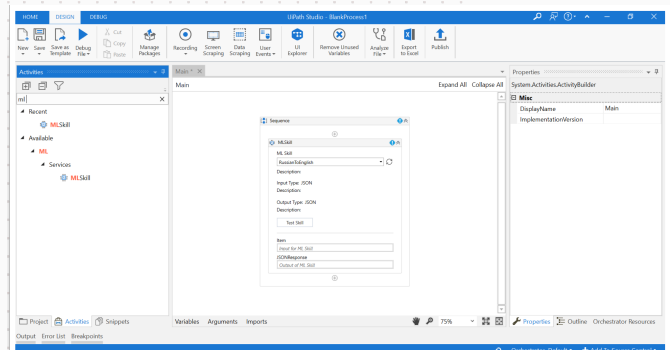

What are the key features?

Model of Your Choice

Package **your models**, upload them directly to AI Fabric, and make them available for robots to consume within minutes.
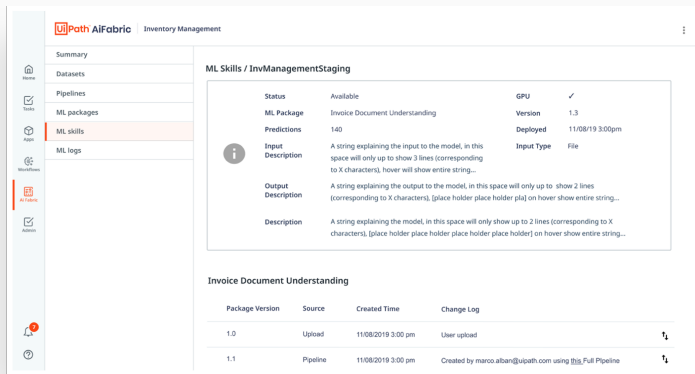

Alternatively, select **UiPath out-of-the-box ML models** or **pre-trained ML models from UiPath AI technology partners** that work best for your workflows.

Drag and Drop AI

Choose a model and **drag and drop** it to your workflow **right in Studio** to accelerate the porential of your automations.

Select an AI skill suited to your business needs from a **drop down**.
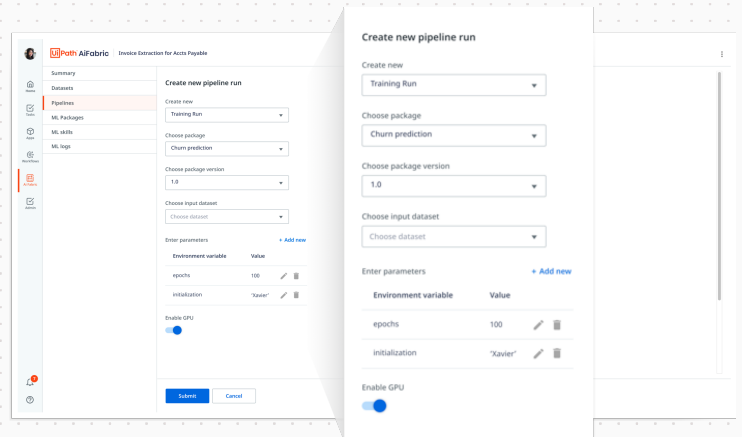

UiPath™

Model Governance

Gain **end-to-end visibility of model versioning and updates.**

Your RPA teams will know when models have been updated, and your data science teams will know how your models are being used in production.

Continuous learning enabled by Human-in-the-Loop

Continuously improve your models by bringing **Human-in-the-Loop** to handle exceptions, validate data and send it for **retraining**.

How does it work?

1
Deploy

Easily deploy your own AI skills, pre-trained AI skills developed by UiPath or UiPath AI technology partners.

2
Consume

Drag and drop AI skills to an RPA workflow via UiPath Studio.

3
Manage

Monitor and manage your AI skills ensuring the highest efficiency.

4
Improve

Constantly train and improve ML models using the human validated data.
