

UiPath™ Document Understanding

Get documents processed intelligently

UiPath Document Understanding combines robotic process automation (RPA) and **artificial intelligence (AI)** to help you extract and interpret data from different documents and ensure end-to-end document processing. The tool works with a **wide range of documents** from structured to unstructured, recognizes different objects like **tables, handwriting, signatures, or checkboxes**, and can deal with **various file formats**.

Benefits

Fast, accurate, and flexible document processing with AI

Built to process various document types

Out-of-the-box AI solutions

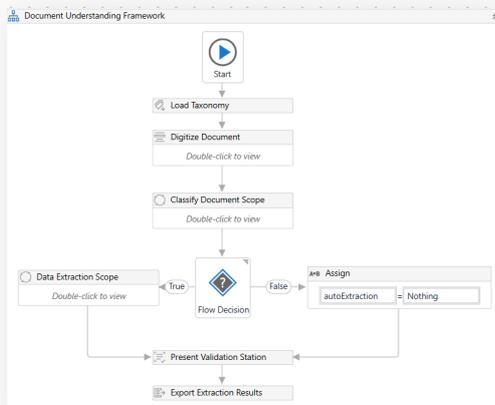

Accuracy improving over time

End-to-end automation of complex processes

What features are included?

Composable Document Understanding framework

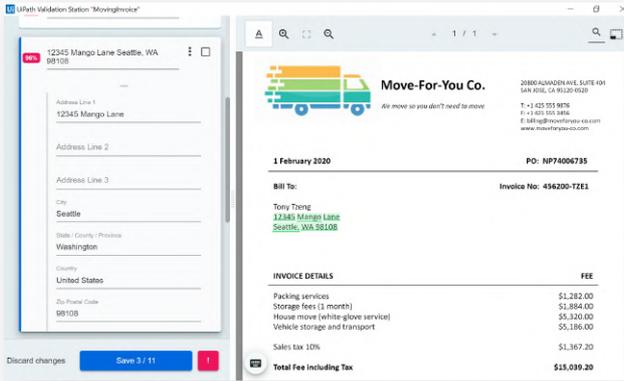

Document Understanding provides a composable framework of **drag-and-drop activities** used to build end-to-end workflows **in Studio**. This way UiPath RPA platform enables automation of more complex and cognitive processes involving high volumes of documents.

In addition to the native capabilities, you can **bring your own models** or incorporate **leading partner solutions** extending the framework to diverse document types and business needs.

Data extraction: from regular expressions to AI to a hybrid approach

Extractors based on **rules and intelligent templates** perfectly handle documents with fixed structure, tables, handwriting, signatures, checkboxes. **Pre-trained machine learning (ML) models** can process less structured documents with minimal configuration time. Finally, you can combine any extractors in a **hybrid approach** to ensure the highest accuracy for your custom business documents.

| Document Types and Fields | Regex Based Extractor | Form Extractor | Intelligent Form Extractor | Invoice ML Extractor | Receipts ML Extractor | Purchase Orders ML Extractor |
|---------------------------|-------------------------------------|-------------------------------------|-------------------------------------|-------------------------------------|-------------------------------------|-------------------------------------|
| | Minimum Confidence % [90] | Minimum Confidence % [90] | Minimum Confidence % [0] | Minimum Confidence % [90] | Minimum Confidence % [0] | Minimum Confidence % [0] |
| Purchase Orders | <input type="checkbox"/> |
| Receipts | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| Invoices | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Date | <input checked="" type="checkbox"/> |
| Name | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Invoice No. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| PO No. | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Billing Address | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Shipping Address | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Vendor Address | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Currency | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Tax Amount | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Total | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

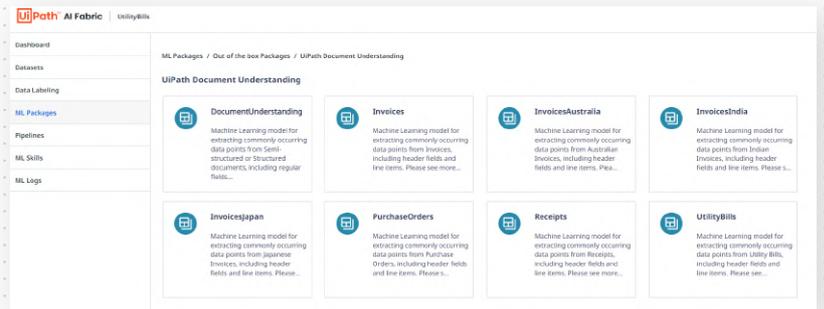

Human validation

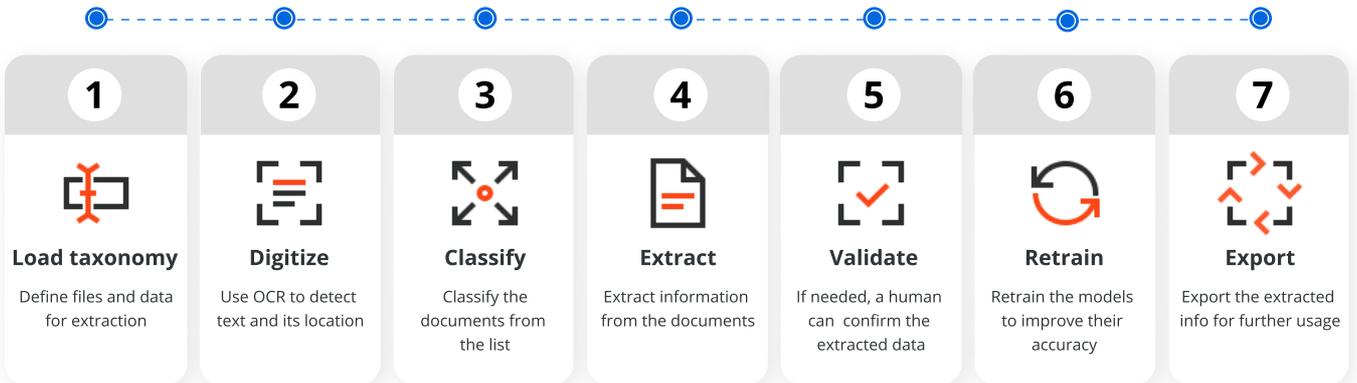

In the case of any inaccuracies, low confidence scores, or exceptions, robots ask for help to confirm the data. An employee receives a notification and opens **Validation Station** or **Classification Station** to **validate data** and **handle exceptions** in the extraction or classification results. Here you can also review all the extracted fields if needed to make sure the data is processed accurately.

Retraining capabilities

You can **retrain ML models in AI Fabric** to help robots understand the specificities of your documents. Similarly, the models can be **retrained automatically based on the human input** in the Validation Station and Classification Station. This means that the more you work with the model, the more effective it becomes. Thus, the accuracy of the output improves over time.

How does it work?

Automate document processing with intelligence, speed, and scale
